## **Full job description**

### **Machinist**

### **Education: High School**

### **Job Description:**

CNC / Manual machinist with experience running 5-axis CNC mills and Y-axis CNC Mill-turn manual lathes and mills.

Set up and operate a variety of machine tools to produce precision parts. Includes precision instrument makers who fabricate, modify, or repair mechanical instruments. May also fabricate and modify parts to make or repair machine tools or maintain industrial machines, applying knowledge of mechanics, shop mathematics, metal properties, layout, and machining procedures.

### **Responsibilities:**

Set up and operate a variety of machine tools to produce precision parts per print.

Setup and operate HAAS VF4SS Mill with 5-axis trunnion

Setup and operate HAAS ST20Y Mill-turn with live tooling

Analyze drawings to determine dimensions and to choose cutting tools, machine speeds, and feed rates

Coordinate with CNC programmer during first article fabrication to ensure specification compliance for resulting parts

Troubleshoot issues during the manufacturing process

Familiarity with Mastercam and Solidworks toolchain

Ability to coordinate use of materials and tooling as required by project.

**Pay depends on experience.**
